Good architecture is
no longer about
simply designing a
building as an isolated

object, but about meeting head-on the forces that are shaping today's world. Architecture Is a Social Act: Lorcan O'Herlihy Architects [LOHA] addresses how the discipline can be used as a tool to engage in politics, economics, aesthetics, and smart growth by promoting

Acces PDF Architecture

social equity, human interaction, and cultural evolution. The book features 28 projects drawn across LOHA's nearly 30-year history, a selection that underscores the direct connection between the development of consciously designed buildings and wider efforts to tackle issues

Acces PDF Architecture

that are relevant in a rapidly changing world. LOHA's projects range from tiny Santa Monica storefronts to vast urban plans in Detroit, Michigan, and Raleigh, North Carolina. From activating main streets, to designing housing of all shapes and sizes, to bringing

Acces PDF Architecture

hope to the homeless,
to developing
strategic plans for the
future growth of cities,
all of the work
featured is
represented within a
larger social
framework. Each case
study is evidence of
LOHA's mastery of
scale, form, light, and
space that gives
people a true sense of

place and belonging.

will include 3–4
historical images that
depict historical
