"Live Your Life Insurance" shows you exactly how you can take advantage of one of the most common, but misunderstood, financial tools. In it, you'll discover exactly how you can use your life insurance to benefit you while you are alive - and help you build financial security. In addition, it will reveal ways to make the best of your policy no matter what age you are. Most people don't realize what a powerful tool they have in their life insurance policies - this book will be your guide.

America's elite have been using cash value life insurance to stockpile wealth for centuries. Used correctly, it is better described as a personal bank on steroids, and a financial bunker for tough times. To be clear, this book is not about the typical garbage peddled by most insurance agents. Rather, an alternative to the risky investment strategies taught by Wall Street. It details a highly efficient form of cash value life insurance designed to supercharge your savings and stockpile wealth. A product so powerful it's responsible for the success of Walt Disney, JC Penney, Ray Kroc, and thousands of others. Here's what you'll discover: How the wealthy use this vehicle to create more wealth, take less risk, and create predictable income down the road Why banks and corporations place billions of dollars in this powerful vehicle How I earned over 300 percent returns leveraging my life insurance policies How you can create a safe, predictable foundation to enhance every financial decision you make How to win with taxes and keep more of the money you make While the information compiled into this book is valuable, you'll also find three case studies that show you exactly how it works. You'll be able to visually see how it grows, how it's accessed, as well as the future income that can be taken. Influencers of this book are Nelson Nash, his book "Becoming Your Own Banker: Unlock the Infinite Banking Concept"; Pamela Yellen, her book "Bank on Yourself"; Dwayne Burnell, his book "Financial Independence in the 21st Century - Life Insurance - Utilize the Infinite Banking Concept"; Compliment Your 401K - Retirement Planning With Permanent Whole Life versus Term or Universal - Create Financial Peace"; and my Father Dan Thompson, and his book "The Banking Effect: Acquiring wealth through your own Private Banking System." I was introduced to these financial strategies at a young age, and this is book represents the effort and energy on both the part of everyone of my mentors, these authors here, as well as my own diligence in learning about and implementing these very same strategies into my personal finance. This book is designed to simplify some of the concepts surrounding cash value life insurance, such as Infinite Banking and Bank on Yourself, and make them easier to understand, stripping them down to the core benefits of cash value life insurance.

Is life insurance a bad investment? Don't I lose all my cash value when I die? Shouldn't I just make a bundle and invest it instead? What about my spouse or my kids-do they need life insurance? Can I borrow money from (or is it against?) a life insurance policy? My insurance advisor told me one thing about insurance, but my financial planner gave me different advice, and an expert on TV said something else entirely. What do I do now? Help! Every day, people like you and me run into questions like these-and no good answers. The truth about life insurance is that myths, misunderstandings, and even outright lies cause a lot of uncertainty around what it is, how it works, who needs it and when, and-most importantly-the great benefits it can bring to your life. This book is here to clear up all that confusion. With combined experience of over fifty years in the life insurance industry, Kim Butler and Jack Burns know what's true and what isn't. They've seen what works and what fails. They've lived through every success and failure the industry can throw at them. And they're fed up with seeing smart, well-meaning people fall for costly half-truths and mix-ups because they just can't find the right information. Busting The Life Insurance Lies takes the 38 biggest, loudest myths around life insurance and breaks them wide open. Whether you're wondering if life insurance is right for you, wanting to understand how it can help you while you're still alive, or even an insurance advisor yourself, this book will guide you to the answers you need to make the clearest, most informed decision-one you'll feel good about for the rest of your life.

From a renowned financial journalist who has written for Time, Fortune, Forbes, and The New Yorker, a fresh and unexpectedly profound book that draws on hundreds of hours of exclusive interviews with many of the world's super-investors to demonstrate that the keys for building wealth hold other life lessons as well. Billionaire investors. If we think of them, it's with a mixture of awe and suspicion. Clearly, they possess a kind of genius-the proverbial Midas Touch. But are the skills they possess transferable? And do they have anything to teach us besides making money? In Richer, Wiser, Happier, William Green draws on interviews that he's conducted over twenty-five years with many of the world's greatest investors. As he discovered, their talents extend well beyond the financial realm. The most successful investors are mavericks and iconoclasts who question conventional wisdom and profit vastly from their ability to think more rationally, rigorously, and objectively. They are master game players who consciously maximize their odds of long-term success in markets and life, while also minimizing any risk of catastrophe. They draw powerful insights from many different fields, are remarkably intuitive about trends, practice fanatical discipline, and have developed a high tolerance for pain. As Green explains, the best investors can teach us not only how to become rich, but how to improve the way we think, reach decisions, assess risk, avoid costly errors, build resilience, and turn uncertainty to our advantage. Green ushers us into the lives of more than forty super-investors, visiting them in their offices, homes, and even their places of worship-all to share what they have to teach us. Richer, Wiser, Happier brings together the thinking of many of the greatest investment minds, from Sir John Templeton to Charlie Munger, Jack Bogle to Ed Thorp, Will Danoff to Mohnish Pabrai, Bill Miller to Laura Geritz, Joel Greenblatt to Howard Marks. In explaining how they think and why they win, this landmark book provides gems of insight that will enrich you not only financially but also professionally and personally.

How do the rich get rich? An updated edition of the remarkable New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don't live in Beverly Hills or on Park Avenue. They live next door. America's wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don't realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as 'rich' are actually a tiny minority of America's truly wealthy citizens-and behave quite differently than the majority. At the time of its first publication, The Millionaire Next Door was a groundbreaking examination of America's rich-exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley/updating the original content in the context of the financial crash and the twenty-first century. |Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today's earn-and-consume culture. |Library Journal

A life's worth of smart financial advice! (Newsweek).

Is it possible that everything you have been told about building wealth is wrong? For decades, typical financial planning has sold itself on perpetuating a fundamental lie-that you can reach prosperity through its methods. But truly prosperous individuals don't follow typical financial planning. They know that most mainstream money advice is not intended to make you wealthy; it is intended to keep you from being poor. Big difference. And like any advice for the masses, it is geared toward the lowest common denominator. Busting the Financial Planning Lies strips away the myths surrounding money and charts a course toward true prosperity. This book is not for everyone-it is for those of you who sense there is a greater truth than what you hear on the typical cable TV money show or financial talk radio program. You want to zig when others zag. Among other things, this book challenges several popular money mantras: Your home is your best investment. Put as much money into your 401(k) as possible. The stock market can make you rich. Make extra payments toward your mortgage. Life insurance is something only beneficial in the event of your death. The time is now to decide whether you want to strategize for comfort or prosperity. This book will not only help you make that decision, but will reveal the atypical ways prosperity-minded people make their money work for them.

This back-to-basics guide by investment guru John E. Girouard reveals how investment industry sales people give shoddy advice and sell poorly-designed investment "products" aimed at enriching themselves and their firms at customers' expense. "The Ten Truths of Wealth Creation is not a recipe for getting rich, but an honest look at the common mistakes many make in their financial lives, and how readers can unlock the natural money-growing opportunities that those selling investment "products" never talk about. Girouard explains how income is often taxed multiple times, how financial choices can minimize those taxes, and how those saved dollars can add up and grow wealth. Girouard shows how simple, common sense choices can help readers reach their money goals sooner and safer, in good times and bad.

A striking and surprising debut novel from an exhilarating new voice, Such a Fun Age is a page-turning and big-hearted story about race and privilege, set around a young black babysitter, her well-intentioned employer, and a surprising connection that threatens to undo them both. Alix Chamberlain is a woman who gets what she wants and has made a living, with her confidence-driven brand, showing other women how to do the same. So she is shocked when her babysitter, Emira Tucker, is confronted while watching the Chamberlains' toddler one night, walking the aisles of their local high-end supermarket. The store's security guard, seeing a young black woman out late with a white child, accuses Emira of kidnapping two-year-old Briar. A small crowd gathers, a bystander films everything, and Emira is furious and humiliated. Alix resolves to make things right. But Emira herself is aimless, broke, and wary of Alix's desire to help. At twenty-five, she is about to lose her health insurance and has no idea what to do with her life. When the video of Emira unearths someone from Alix's past, both women find themselves on a crash course that will upend everything they think they know about themselves, and each other.
