From Calabria to Connecticut: a sweeping family saga about sisterhood, secrets, Italian immigration, the American dream, and one woman's tenacious fight against her own fate For Stella Fortuna, death has always been a part of life. Stella's childhood is full of strange, life-threatening incidents—moments where ordinary situations like cooking eggplant or feeding the pigs inexplicably take lethal turns. Even Stella's own mother is convinced that her daughter is cursed or haunted. In her rugged Italian village, Stella is considered an oddly-beautiful and smart, insolent and cold. Stella uses her peculiar toughness to protect her slower, plainer baby sister Tina from life's harshest realities. But she also provokes the ire of her father Antonio: a man who demands subservience from women and whose greatest gift to his family is his absence. When the Fortunas emigrate to America on the cusp of World War II, Stella and Tina must come of age side-by-side in a hostile new world with strict expectations for each of them. Soon Stella learns that her survival is worthless without the one thing her family will deny her at any cost: her independence. In present-day Connecticut, one family member tells this heartrending story, determined to understand the persisting rift between the now-elderly Stella and Tina. A richly told debut, The Seven or Eight Deaths of Stella Fortuna is a tale of family transgressions as ancient and twisted as the olive branch that could heal them. "Witty and deeply felt." –Entertainment Weekly (New and Notable) "The Seven or Eight Deaths of Stella Fortuna achieves what no sweeping history lesson about American immigrants could: It brings to life a woman that time and history would have ignored." –Washington Post

What are the words we use to describe something that we never thought we'd have to describe? In Seven American Deaths and Disasters, Kenneth Goldsmith transcribes historic radio and television reports of national tragedies as they unfold, revealing an extraordinarily rich linguistic panorama of passionate description. Taking its title from the series of Andy Warhol paintings by the same name, Goldsmith recasts the mundane as the iconic, creating a series of prose poems that encapsulate seven pivotal moments in recent American history: the John F. Kennedy, Robert F. Kennedy, and John Lennon assassinations, the space shuttle Challenger disaster, the Columbine shootings, 9/11, and the death of Michael Jackson. While we've become accustomed to watching endless reruns of these tragic spectacles—often to the point of cliché—once rendered in text, they become unfamiliar, and revealing new dimensions emerge. Impartial reportage is revealed to be laced with subjectivity, bias, mystery, second-guessing, and, in many cases, white-knuckled fear. Part nostalgia, part myth, these words render pivotal moments in American history through the communal lens of media.

The heart-wrenchingly honest and fascinating new book from forensic pathologist and bestselling author of UNNATURAL CAUSES, Dr Richard Shepherd 'Enlightening, strangely uplifting . . . Shepherd's final chapter on death itself is a meditation of great beauty and light which puts all the darkness of the previous pages into perspective' DAILY MAIL 'Life-enhancing' DAILY TELEGRAPH 'Deeply insightful. Unflinching' THE TIMES 'Fascinating' DAILY EXPRESS 'This book is about death, but in it I will take readers on a journey through life . . .' _____ Dr Richard Shepherd, Britain's top forensic pathologist, has spent a lifetime close to the dead. As a medical detective, each autopsy he carries out is its own unique investigation, uncovering the secrets not only of how a person died, but also of how they lived. Through twenty-four of his most intriguing, enlightening and never-before-told cases, Dr Shepherd shares autopsies that span the seven ages of human existence, and have taught him as much about the marvels of life as the inevitability of death. From old to young, from murder to misadventure, and from illness to accidental death, each of these bodies has something to reveal: about human development, about mortality, about its owner's life story, about justice and even about Shepherd himself. From the bestselling author of Unnatural Causes comes a powerful, moving and above all reassuring book about death as it touches our own lives - how to understand it, and, when our time comes (as it must), how to embrace it as the last great adventure. _____ 'He has the ability to examine himself and other people with the same forensic eye that he applies to corpses - one of the reasons why his books feel so life-enhancing' Daily Telegraph Praise for Dr Richard Shepherd 'Gripping, grimly fascinating, and I suspect I'll read it at least twice' Evening Standard 'A deeply mesmerising memoir of forensic pathology. Human and fascinating' Nigella Lawson 'An absolutely brilliant book.
