||Professor Astro Cat's Solar System|| is based on the best-selling book, ||Professor Astro Cat's Frontiers of Space by illustrator Ben Newman and quantum physicist Dr Dominic Walliman. This app was created by Minilab Studios in partnership with our sister company, Flying Eye Books, the award-winning children's book publisher.

Astro Cat's Solar System on the App Store

Professor Astro Cat and his team then seek to answer all manner of questions about the human body and how it works from your cells to your ears to your heart to genetics. The book also looks at some quite complex bodily functions- the lymphatic system, the endocrine system, the immune system and genetics.

Professor Astro Cat explains everything he knows about the solar system and outer space, including the Big Bang, manned missions to the Moon, and the night sky throughout the months of the year.

Professor Astro Cat explains everything he knows about the solar system and outer space, including the Big Bang, manned missions to the Moon, and the night sky throughout the months of the year.

In this companion activity book to the hit series, Astro Cat will help you think and speak like an astronaut!

Young readers (and cats!) discover the wonders our solar systems as they travel to each of the planets in turn!

Professor Astro Cat is back to explain the world of physics!

Encourage kids aged 7 to 11 to think critically, be curious, and dream big with Explorer's Journal, a guided space exploration journal featuring delightful midcentury art from the hit cult book Professor Astro Cat's Frontiers of Space. Calling all space explorers! Your mission is to journey through space with Professor Astro Cat and log your supersonic, interstellar findings! Discover the solar system and beyond from your backyard or bedroom with this guided journal based on Ben Newman's art from Professor Astro Cat's Frontiers of Space. Keep a record of every shooting star you see, calculate how old are you really are on Neptune, dream up your very first space mission, and learn about asteroids, molten lava planets, galaxies, space stations, and tons more. Plus, Explorer's Journal includes a helpful section with important science terms and vocabulary ensures that your planetary knowledge will be out of this world. Up, up, and away!

Where did all the water on our planet come from? How deep is the ocean? What exactly is a fish? Find out all of this and more in the newest Professor Astro Cat adventure! Despite covering over 70% of the Earth's surface, the ocean is still roughly 95% unexplored. Join Professor Astro Cat and the gang as they take a deep dive from the sea shore all the way to the darkest depths of the ocean floor to find out more about this mysterious watery world. From coral reefs to deep-sea vents, there's so much to discover on this Deep-sea Voyage.

The latest Professor Astro Cat adventure is perfect for curious young scientists who want to learn more about the ins and outs of the human body! Are our ears supposed to be a weird shape? Why do we sneeze? What is the point in having skin? The human body is one of the most complicated things in the Universe. Join Professor Astro Cat and the whole gang as they journey through all the wondrous parts of the human body, with the help of writer Dominic Walliman himself! From head to toe and everywhere in-between, there's nothing left out of this fascinating human body odyssey!

Introducing the latest book in the Professor Astro Cat series of compelling science books for kids, now for younger readers! Greetings, fellow space travelers! Have you ever wondered how a rocket works? Do you dream of becoming an astronaut? Then come along as we find out all the exciting ways we can reach space. Professor Astro Cat's latest adventure leads young readers through the wonders of space travel. Easy-to-understand facts and descriptions introduce rockets, spaceships, satellites and the space station. Get ready for blastoff!

Part of an award-winning book series for children, this is the ultimate guide to our magnificent solar system and the astronauts who explore it. An entertaining, educational adventure for young readers. Engage the senses through vivid deep-space photography, cutaways and illustrations, quiz questions, and quirky fun facts. It's the perfect book for any kid who can't get enough of outer space! Supporting STEM-based learning, this fact-filled book for kids is perfect for ages 6-9 and contains key curriculum information. Although, age is but a number, don't let our recommendations put you off enjoying this absolute masterpiece of extraordinary astronomy! This kids educational book is so much more than just another book about space. It allows children to discover the mysteries of asteroids hurtling through space, comets lighting up the sky, and the biggest star in our glorious solar system, the Sun. It also explores the steps we've taken to study outer space, like launching the International Space Station. Not to mention the exquisite photographs of nearby planets, stars, and astronomical bodies and stunning details on each of Earth's neighboring planets, including fascinating facts about their moons, mineral makeup, and more. While it's packed with a lot of information, it is presented in a way that can be read in snippets that are appropriate to any level of understanding and you can return to it over and over again to enjoy the majestic beast that is outer space in more detail. Vetted by educational consultants, the DKfindout! series drives kids ages 6-9 to become experts on more than 30 of their favorite STEM- and history-related subjects. Find out Amazing Facts About Our Solar System! What is the weather like on Jupiter? Which planet is the hottest? What are Saturn's remarkable rings made of? How long would it take to get to Pluto? Find out the answers to these questions and more in DKfindout! Solar System. This incredible book is packed with surprising facts and amazing pictures that are simply put, out of this world! From comets to craters, this book captures the beauty of our celestial system as best as one can without going into space itself. Explore the world of astronomy and travel our solar system as we know it today: -Explore Mars, Jupiter, Saturn and Pluto -Learn about Space rocks, ice giants, and an asteroid belt -Adventure through space ages, meet alien hunters and go beyond the solar system! DKfindout! Solar System is one title in the DKfindout! series of educational books for kids, and Silver award winner in the MadeForMums Awards 2017 children's books series category. Kids around the world are obsessed with this gorgeous collection, so much so that a range of massive DKfindout! posters for bedroom walls are sold separately. Add to your collection and nurture your little one's interest in the world. Other titles include DKfindout! Birds, Castles, Climate Change, Pirates, Coding, Ancient Egypt, Engineering, Reptiles and a whole lot more!
