Nurses Reflective Diary for Revalidation From 2016 all nurses and midwives who practice in the UK will need to undergo a system of revalidation. One part of the revalidation process will be for nurses and midwives to contemplate five instances of their nursing practice that link to the nurses national code of practice. And, from that reflection, consider ways of improving their professional practice. Diary and Workbook for Nurses This workbook provides a framework to first describe the incident, then link the incident to the Code of Practice, and finally show how the incident could be improved further. After five reflections and for your next revalidation, you can ask your professional nurse supervisor to sign the workbook template, indicating they have seen and approved your reflective diary. This signed document is scanned or copied and inserted into your continuing professional development (CPD) portfolio. Never Search for Piece of Paper Again The workbook for reflection is designed for a revalidation's, which covers a period of over 10 years. Now nurses will be able to show their professionalism and development in one simple, easy to use, easy to keep and find diary and workbook. There is also references and website links for further advice; but the real beauty is that this nurse reflection diary is a stand alone document to keep with you for the next 12 years of your practice as a nurse or midwife.

Packed with practical advice, this concise guide explains what reflective writing is and how to approach it. It equips students with all the key information and strategies they need to develop an appropriate reflective writing style, whatever their subject area. Annotated examples from a range of disciplines and contexts show students how to put these tips into practice. It concludes with a section on applying reflective practices to personal development and career planning. This handy guide is an indispensable resource for students of all disciplines and levels, who are required to develop and demonstrate reflective qualities in their work. It will be particularly useful to students writing reflective logs on placements. New to this Edition: · Contains more content on the value and importance of reflection in other life contexts, so that students can appreciate its relevance from an early stage; · Features a short overview of academic writing genres, to help students make connections between reflective writing and other forms of academic writing with which they are already familiar · Covers alternative ways of capturing reflection, such as free-writing, blogs/vlogs and other technologies · Includes new examples which show how students have re-worked their initial drafts to produce a better, more appropriate response

This title is directed primarily towards nursing students outside of the United States. As well as features of a normal diary it incorporates nursing-specific elements designed to help students with their clinical placements and reflection (both requirements of the pre-registration nursing course).

'Christopher Johns is an internationally recognised pioneer of reflective practice in nursing and health care.' – Nursing Standard Becoming a Reflective Practitioner provides a unique insight into reflective practice, exploring the value of using models of reflection, with particular reference to Christopher Johns' own model for structured reflection. Now in its fifth edition, this book has been completely revised and updated to include up-to-date literature and reflective extracts. Contemporary in approach, this definitive text contains a variety of rich and insightful reflective extracts that support the main issues being raised in each chapter, and challenges practitioners and students to question their own practice. Now with further scenarios and case studies included throughout, these extracts provide the reader with access to the experience of reflective representation helping to explicate the way in which reflective practice can inform the wider notion of professional practice. With an increase in professional registration requiring reflective evidence, this new edition of Becoming a Reflective Practitioner is an essential guide to all those using reflection in everyday clinical practice.

This best-selling pocket-sized book helps you perform drug calculations with confidence and competence. The completely updated third edition includes community practice and primary care settings, and a whole new section on pharmacology and medicines to put drug calculations into context. Starting with the basic mathematical skills required for calculations, including tips on using calculators and estimating answers, Drug Calculations for Nurses progresses to give you an understanding of basic pharmacokinetics and therapeutics. It also covers how drugs work in specific groups such as children and the elderly. The book takes you through step-by-step drug calculations with units and drug strengths clearly explained. Pre-test and a revision questions allow you to test and be confident in the skills you have acquired.

An Australian text designed to address the key area of clinical reasoning in nursing practice. Using a series of authentic scenarios, Clinical Reasoning guides students through the clinical reasoning process while challenging them to think critically about the nursing care they provide. With scenarios adapted from real clinical situations that occurred in healthcare and community settings, this edition continues to address the core principles for the provision of quality care and the prevention of adverse patient outcomes.

Are you prepared for revalidation? All nurses and midwives in the UK are required to complete the revalidation process every 3 years in order to renew their registration. This book explores key areas of revalidation such as adult learning and CPD, personal reflection and growth, and improving practice by obtaining and learning from practice-related feedback. This handy guide contains a wealth of tips and advice for all nurses and midwives to help to make the process more understandable and manageable. Key features: • Practical suggestions and examples for engaging in relevant continuing professional development (CPD) • Introduces methods to help complete the reflective accounts • Provides support to prepare for the reflective discussion and confirmation process • Features 'Time Out' boxes and activities throughout that can be used for reflection on practice and support personal development • Practical ideas for portfolio development Essential reading for all NMC registrants, regardless of practice setting, as well as student nurses and midwives who will need to undergo revalidation throughout their careers. Employers will also find this book helpful when supporting staff with revalidation. "I found this book very easy to read. It shows clearly how to incorporate revalidation into our practice and make it as stress-free as possible!" Myrna Melville, Registered Nurse, UK "The book is structured in an accessible way and is designed to really assist registrants through the revalidation process. I particularly like the frequent activities built in as the reader progresses through the chapters." Professor Ian Murray, Head of School of Nursing and Midwifery, Robert Gordon University, UK "This book is a first of its kind and as the title suggest it's a journey where the authors walks with the readers step by step to a successful revalidation destination. The authors are evidently well vast with this subject matter and had produced a book that is beautifully laid out, easy to read without being patronizing." Esther Kuria
