~~But altogether, When We Wake is a smart, intelligent book that portrays a very plausible futuristic society, toys around with interesting medical possibilities, and is narrated by an admirable young woman. In some places I wish Karen Healey had delved a bit deeper into her subject matter, but overall this was a very interesting book.~~

~~When We Wake stands apart from much of the modern science fiction I have read recently, despite being a novel aimed at young adults. Its setting and themes arise from 21st century culture and issues rather than merely parroting the anxieties of its science fiction forbears. It addresses subjects of contemporary importance in a realistic and relatively nuanced way. It is true that the author ...~~

Sixteen-year-old Tegan is just like every other girl living in 2027--she's happiest when playing the guitar, she's falling in love for the first time, and she's joining her friends to protest the wrongs of the world: environmental collapse, social discrimination, and political injustice. But on what should have been the best day of Tegan's life, she dies--and wakes up a hundred years in the future, locked in a government facility with no idea what happened. Tegan is the first government guinea pig to be cryonically frozen and successfully revived, which makes her an instant celebrity--even though all she wants to do is try to rebuild some semblance of a normal life. But the future isn't all she hoped it would be, and when appalling secrets come to light, Tegan must make a choice: Does she keep her head down and survive, or fight for a better future? Award-winning author Karen Healey has created a haunting, cautionary tale of an inspiring protagonist living in a not-so-distant future that could easily be our own.~~

~~It's 2127, and the future is at stake . . . Abdi Taalib thought he was moving to Australia for a music scholarship. But after meeting the beautiful and brazen Tegan Oglietti, his world was turned upside down. Tegan's no ordinary girl - she died in 2027, only to be frozen and brought back to life in Abdi's time, 100 years later. Now, all they want is for things to return to normal (or as normal as they can be), but the government has other ideas. Especially since the two just spilled the secrets behind Australia's cryonics project to the world. On the run, Abdi and Tegan have no idea who they can trust - and, when they uncover startling new details about the program, they realize that thousands of lives may be in their hands. Karen Healey offers a suspenseful, page-turning companion to When We Wake that will keep readers on the edge of their seats and make them call into question their own ideas about morality -- and mortality, too.~~

She hangs out with her best friend Kevin, she obsesses over Mark, a cute and mysterious bad boy, and her biggest worry is her paper deadline. But then everything changes. The news headlines are all abuzz about a local string of serial killings that all share the same morbid trademark: the victims were discovered with their eyes missing. Then a beautiful yet eerie woman enters Ellie's circle of friends and develops an unhealthy fascination with Kevin, and a crazed old man grabs Ellie in a public square and shoves a tattered Bible into her hands, exclaiming, "You need it. It will save your soul." Soon, Ellie finds herself plunged into a haunting world of vengeful fairies, Maori mythology, romance, betrayal, and an epic battle for immortality.~~

As the three dig deeper, disturbing facts begin to pile up: one boy killed every year; all older brothers; all had spent New Year’s Eve in the idyllic town of Summertown. But when their search for the serial killer takes an unexpected turn, suspicion is cast on those they trust the most. As secrets shatter around them, can they save the next victim? Or will they become victims themselves?~~

Sarah Dove is no ordinary bookworm. To her, books have always been more than just objects: they live, they breathe, and sometimes they even speak. When Sarah grows up to become the librarian in her quaint Southern town of Dove Pond, her gift helps place every book in the hands of the perfect reader. Recently, however, the books have been whispering about something out of the ordinary: the arrival of a displaced city girl named Grace Wheeler. If the books are right, Grace could be the savior that Dove Pond desperately needs. The problem is, Grace wants little to do with the town or its quirky residents--Sarah chief among them. It takes a bit of urging, and the help of an especially wise book, but Grace ultimately embraces the challenge to rescue her charmed new community. In her quest, she discovers the tantalizing promise of new love, the deep strength that comes from having a true friend, and the power of finding just the right book. “A mesmerizing fusion of the mystical and the everyday” (Susan Andersen, New York Times bestselling author), The Book Charmer is a heartwarming story about the magic of books that feels more than a little magical itself. ~~A heartwarming story about childhood friends, broken lives, and a long ago promise that just might offer the hope of love for today. Years ago, the day before Ellie moved from Georgia to California, she and her best friend Nolan sat beneath the Spanish moss of an ancient oak tree where they wrote letters to each other, and sealed them in a rusty old metal box. The plan was to return eleven years later and read them. But now, as that date arrives, much has changed. Ellie, bereft of the faith she grew up with, is a single mom living in a tired apartment trying to make ends meet. Sometimes she watches television to catch a glimpse of her old friend -Nolan, now an NBA star, whose terrible personal tragedies fueled his faith and athletic drive in equal measure. But Nolan also suffers from a transcendent loneliness that nothing has ever eased. In their separate lives, as Ellie and Nolan move toward the possibility of a reunion at the oak tree, Kingsbury weaves a tale of heart-wrenching loss, the power of faith, and the wounds that only love can heal.~~

~~The New York Times bestselling author of the Tradd Street novels delivers a gripping tale of family, fate, and forgiveness. When Piper Mills was twelve, she helped her grandfather bury a box that belonged to her grandmother in the backyard. For twelve years, it remained untouched. Now a near fatal riding accident has shattered Piper’s dreams of Olympic glory. After her grandfather’s death, she inherits the house and all its secrets, including a key to a room that doesn’t exist--or does it? And after her grandmother is sent away to a nursing home, she remembers the box buried in the backyard. In it are torn pages from a scrapbook, a charm necklace--and a newspaper article from 1939 about the body of an infant found floating in the Savannah River. The necklace’s charms tell the story of three friends during the 1930s-- each charm added during the three months each friend had the necklace and recorded her life in the scrapbook. Piper always dismissed her grandmother as not having had a story to tell. And now, too late, Piper finds she might have been wrong.~~
