"Crisis and Contradiction: Marxist Perspectives on Latin America in the Global Economy is the indispensable source for students, academics and activists interested in the transition to neoliberalism in Latin America. If Latin America is the region in which, perhaps more than any other, the left needs urgently to take an interest, the contributors to this volume have taken up the challenge.

Crisis and Contradiction: Marxist Perspectives on Latin ...

Crisis and Contradiction. Since the late-1990s much of Latin America has experienced an uneven and contradictory turn to the Left in the electoral arena. At the same time, there has been a rejuvenation of Marxist critiques of political economy. Drawing on the expertise of Latin American, North American, and European scholars, this volume offers cutting-edge theoretical explorations of trends in the region, as well as in-depth case

This review first appeared in *Capital & Class* , 40, 2, 2016, pp. 371-4. This collection is unfocused, uneven and incoherent, so does little credit to the editors or publishers. It would have been significantly improved had it done more to outline and compare some currently influential Marxist perspectives on Latin America – including Marxist, Leninist, Trotskyist and Gramscian approaches, at ...

Marxism, by contrast, provides a clear, scientific analysis of the capitalist system, its relations and laws, and why these intrinsically lead to crises. These, in the final analysis, are crises of overproduction.

Marxism, Keynesianism, and the crisis of capitalism

When Marx and Engels applied the law of contradiction in things to the study of the socio-historical process, they discovered the contradiction between the productive forces and the relations of production, they discovered the contradiction between the exploiting and exploited classes and also the resultant contradiction between the economic base and its superstructure

Crisis of Marxism (aka "crisis in Marxism ") was a term first employed in the 1890s after the unexpected revival of global capitalist expansion became evident after the Great Depression of Europe from 1873-1896, which eventually precipitated a crisis in Marxist theory. The crisis resulted in a series of theoretical debates over the significance of economic recovery for the strategy of the socialist movement, leading to ideological fragmentation and increasingly sectarian debates.
