Find wind, wave and weather forecast for over 45000 locations on Windfinder. Windfinder specializes in wind and weather forecasts for kitesurfers, windsurfer, surfers, sailors and paragliders.

Windfinder - Wind & weather forecasts & reports

The Wave Life Cycle I: Generation module examines how wind creates waves and the inter-relationships between wind speed, wind duration, and fetch length. Following that module, Wave Life Cycle II: Propagation & Dispersion, teaches marine forecasters to manually predict how wave height and period change as waves leave their generation area, become swell, and then propagate and disperse into coastal waters.
